PUSH PLANS TO END WAR

PARIS — France and Great Britain may announce unqualified recognition of the Spanish Nationalist government after a special meeting of the French cabinet Friday, it was reported today.

It was indicated strongly that France had been reconciled to recognized the Nationalists without condition as the legal government of Spain.

Senator Leon Berard, special French envoy to the Nationalists, returned to Burgos, Spain, last night from the frontier, where he had reported to Premier Edouard Daladier and Foreign Minister Georges Bonnet by telephone and diplomatic courier.

Berard was to begin a final series of conferences with Francisco Gomes Jordana, Nationalist foreign minister, late today on Jordana's return from Barcelonia where he took part in the triumphal entry of Generalissimo Francisco Franco.

It was understood that Berard had definite inteructions to reach agreement with Jordana for an exchange of diplomatic representation on the basis of de Jure or full legal status. He was authorized to wave the written assurance which France previously had sought. However, it was indicated that he would seek—and hoped to get without difficulty — verbal assurances that the Nationalist government would pursue independent military and political policies without entangling alliances with the Totalitarian powers which might be a menace to France as neighbors.

Italian Troops to Remain In Spain

ROME — Premier Benito Mussolini, in a telegram to Generalissimo Francisco Franco, has reaffirmed that Italian troops will remain in Spain until "final victory" has been won, it was announced today.

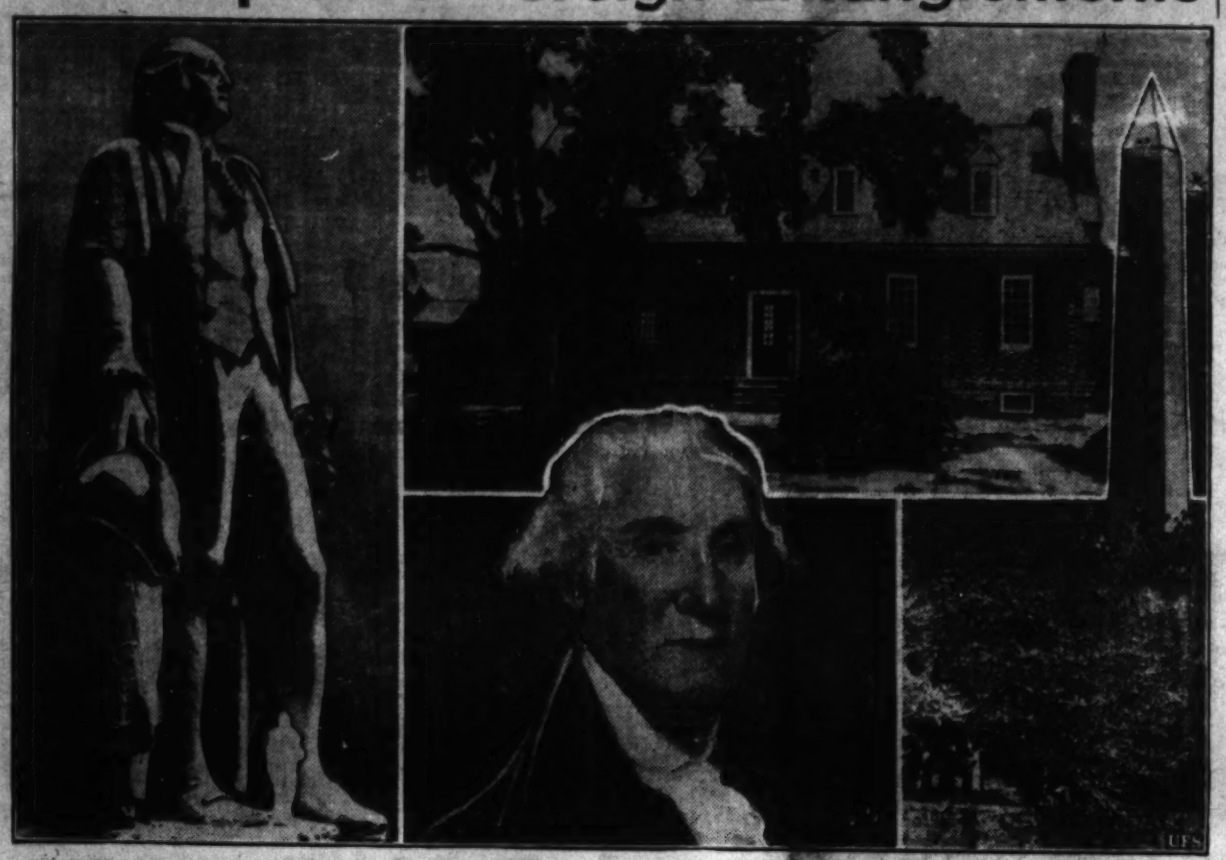
Russians Charged With Espeonage

LOS ANGELES — The government undertook to prove today that Soviet Russia sent an official employee to this country for no other purpose than to steal national defense secrets. It was beginning its case against two Russian citizens and a naturalized Russian charged with espeonage.

With a jury of business men quickly selected, the government moved at once to prove that the three persons on trial were cogs in the Soviet government's preparations for a war with Japan, considered by many to be inevitable. They were not charged with espeonage against the United States, but with stealing secret data concerning Japanese military operations and munitions purchases gathered by the intelligence agents of the United States army.

GAY SWELL—Mrs. Shin Bahn of Hollywood, Cal., daughter of Abe Lincoln, former millionaire and politician, as she went on trial in St. Louis on a charge of forgery involving four checks totaling $20,000 in an attempt to obtain a home deposit in her children's names. Mrs. Bahn, mother of two children, denies the charges.

He Deplored Foreign Entanglements



NO ENTANGLEMENTS—It's 207 years since George Washington, first President of the United States, was born on Feb. 22 (Feb. 11 Old Style), 1732, but time seems only to add to the greatness of the man. As interesting today as when he uttered them in his farewell address to Congress are his words: "Why, by interweaving our destiny with that of any part of Europe, entangle our peace and prosperity in the toils of European ambition, rivalship, interest, humor or caprice?" Washington was born at Wakefield, Va., in the house shown above. The portrait of him, above, is by Gilbert Stuart, who painted a number of portraits of him. At right is the graceful shaft of the Washington memorial monument in the Nation's Capital, viewed from the cherry tree basin. At left is a model of the gigantic 65-foot statue of Washington to be erected on the Central Mall of the New York World's Fair. It is by James Earle Fraser and represents Washington as he arrived in New York for his first inauguration. Cut-out contrasts statue with normal man's height. Washington served two terms as President, refusing a third term.

100th Anniversary Of Express Service

Express service in the United States will be one hundred years old on March 4 next, H. D. Lane, agent of Railway Express Agency said today, the anniversary, which marks a new epoch in the progress of express transportation, will be quite generally observed by expressmen employed in 23,000 cities and towns of the country.

The origin of this unique American expedited package shipping system is credited to William H. Harnden, a young man of 26 years, who started a century ago, traveling between Boston and New York, equipped only with a carpetbag. Although confronted with difficulties, because of limited means of travel, his enterprise succeeded and other pioneers, who followed him untiringly, pushed the express west and south, when railroads were few and the stage coach, road wagon, the horse and steamboat were the only means of transportation available. The means of Alvin Adams, Henry Wells and William Fargo were immortalized in the express companies, which bore their names for three quarters of a century.

The Express played a dramatic role, Mr. Lane added, during the early days of the West, following the gold rush, era, when express stages provided a primitive but much needed transportation for passengers, express and mail, before railroads came. The overland stage lines and the Pony Express, which the pioneer expressmen sponsored, connected west and east and ushered in an era of great commercial expansion and railroad construction. The express forged ahead and virtually blanketed the country, winning a constantly increasing volume of business and adding to the variety of its services, including the collection and delivery of shipments, moving on the passenger trains of all American railroads.

Consolidation of express companies and unification of the service were accomplished during the World War and in March, 1929, the Class I railroads acquired ownership of the business and continued its operation through the Railway Express Agency, the nation's "express company" today.

Agent Lane takes pride in the fact that from Harnden's carpetbag one hundred years ago, the express has developed into a vital expedited transportation system of nation-wide extent, handling over

Need Means Of Detecting Sex

STATE COLLEGE — Since some poultrymen want to raise broilers and others want a laying flock, there is a need for a practical way for the average poultryman to determine sex of baby chicks, says J. Z. Beanblossom, extension poultryman.

Studies by the U. S. Department of Agriculture show that such external characteristics as down color, down striping, beak and shank color are good indicators of sex with some breeds and crossbreeds.

When Rhode Island Red males were crossed with Barred Plymouth Rock hens the Bureau workers observed that chicks with a white spot on the head were males. Those without white spots on the head proved to be females. This method proved almost 99 percent correct in determining sex.

A study of purebred Barred Plymouth Rocks showed that female chicks have an intense black down and shank, and a small white spot on the head. The males have a larger white spot on the head, grayish-black down, and yellow shanks. Based on these characteristics, sexing was 91.8 percent correct.

The Bureau scientists also have been successful in sexing Rhode Island Red chicks, finding that 94.9 percent of the striped and spotted chicks were female and 77.8 percent of the non-spotted, non-striped chicks were males. The same general characteristics hold true for the New Hampshire Reds.

Studies have been made of White Plymouth Rocks, Jersey Black Giants, and Jery White Giants. So far the scientists have not found a reliable sex indicator for these breeds.

FIRE FORCE 164 YEARS OLD

DARBY, Pa. — The Darby Fire Company No. 1, founded 164 years ago, is believed the oldest volunteer fire-fighting organization in the country. The company's oldest possession is "The Ram," fire apparatus from England 18[illegible]

Will Criss To Seek Beat Office

W. M. (Will) Criss, of Beat Three has authorized The Sentinel to announce that he will seek the Supervisor's post for that Beat.

Mr. Criss stated that he had never held office, and had not made a political race in 25 years. He has, however held responsible positions, is a successful farmer, and has by hard labor become a holder of consiberable real estate.

Though the writer has not had the pleasure of any lengthy acquaintance with Mr. Criss, he is informed by some highly responsible men that Mr. Criss is a thoroughly reliable, and a splendid citizen.

In making his announcement, Mr. Criss said: "I have a greater desire to be of a worthy service to the people of Beat Three than I do for the proceeds of the office which I seek."

The voters, will, no doubt, give his candidacy a thorough consideration.

J. H. Ferguson

Mr. J. H. Ferguson, age 47, died Thursday afternoon at 3 o'clock at his home.

Funeral services were conducted at 1:30 Friday afternoon at the home.

Survivors include a sister, Mrs. Briscoe, of Hernando, his wife, Mrs. Ferguson, and children, Cecil, Wardell, Clyde and Bernice.

Burial was at Scobey with Garner Brothers in charge.

J. H. Bull In Senate Race

J. H. Bull, who has served Grenada and Montgomery counties in the general assembly since 1936 has announced his candidacy for State Senator from Grenada and Yalobusha counties, in the August primary election.

During and prior to the time Mr. Bull has represented Grenada countians in the general assembly he has been in such contact with its people that most or all of them are acquainted with him personally.

He was born, reared and spent the major part of his life in Yalobusha county, the other county which composes the Senatorial district, which he seeks to represent.

Leaving Yalobusha county, he came to Grenada county and has spent the elapsed time in this county.

In 1935, Mr. Bull was elected to a place in the General Assembly by a splendid vote.

In making his announcement Mr. Bull said: 'My intention is to fight for further homestead exemption laws, until all burdens possible are removed from the smaller homes, and to fight for governmental economy to the extent that the expenses of state and county governmental functions may be reduced. With such reductions effected, I will favor and work for more liberal old age pensions, which I believe practical and possible when waste has been properly eliminated from public expenditures."

Brown Funeral Held Tuesday

Funeral services for John M. Brown, resident of Grenada, were conducted at ten o'clock Tuesday morning by the Rev. E. R. Henderson at Bethel Church, Slate Springs, Mississippi. Burial followed in the Bethel Cemetery, with Garner Brothers in charge of arrangements.

Mr. Brown died Saturday night, February 18 at 7 o'cock, of an asthma attack. He was 64 years old a native of Lewisburg Ky., having come to Mississippi in 1920.

Besides his wife, Mrs. Wilma Doolittle Brown, he is survived by two dauhters,, Elme Mae of Grenada, and Mrs. Carl Rockhill of Alliance Ohio, by a former marriage, also five sons, W. D. and E. W. of Texas, G. B. of Newbrighton, Pa., E. E. of Darlington, Pa.; and O. K. of Canton, Ohio.

More Candidates Enter The Primary

O. D. Spratlin Enters Primary

O. D. Spratlin, who has served Grenada County as Superintendent of Education since January, 1936 has announced his candidacy for re-election in the August primary.

Mr. Spratlin graduated from the University of Misissippi in 1922, and began his career as a teacher at his native town, Vardaman, immediately thereafter.

Two years later, he came to Grenada County as instructor at Gore Springs and remained at that place for eleven years, relinquishing his connection there after being elected Superintendent of Education for Grenada county in 1935.

Mr. Spratlin has been cooperative with the Works Progress Administration in securing new school buildings and improvements, as well as teaching projects and the NYA work.

He has prepared a statement, which follows, giving to some extent an account of service. A fair and impartial consideration is asked in his behalf.

Notice To The Public:

In announcing my candidacy for another term, I wish to express again my appreciation to the citizens of Grenada county for the high honor you conferred upon me in electing me your county superintendent of education in 1935. I have made an honest effort to serve you courteously, honestly, faithfully and efficiently during the the past three years. I have dealt as fairly as I knew how to have arisen during my term of office, and hope that my efforts at their solution have met with the approval of all those concerned. I have tried to follow the laws in the discharge of my official duties and have not knowingly shown special favoritism to and individal or school.

At the present time I am happy to report that the school finances have continuously been kept, and are now, in sound condition.

I am again requesting that my name be placed before the public as a candidate for the office of county superintendent of education, subject to the Democratic primary election of 1939. If my record as an individual, as a citizen, and as an official measures up to the standards you consider necessary for a public officer, I shall greatly appreciate your influence and support in that election. If elected, I shall give you as honest and efficient service as I am capable of giving. With the school situation well in hand now, I should be able to render greater service in the future than I have rendered in the past.

Cordially yours,
O. D. Spratlin.

Tandy Lott In Senate Race

Tandy Lott threw his hat into the middle of the ring this week as a candidate for Senator from the 28th Senatorial District composed of Grenada and Yalobusha counties.

By a gentleman's agreement there is to be no candidate at this time from Yalobusha county, it being Grenada county's time.

Mr. Lott has, for some time been successfully engaged in the livestock or cattle business, and has served the county as Coroner and Ranger.

Apparently, he had not made known to his closest friends his intention to seek a seat in the General Assembly, as his announcement of his plans has had the general effect of a surprise.

At a later date he will, through these columns, make a statement of his platform and his intentions, if elected to the position which he seeks.

A thorough consideration of his candidacy is asked at the hands of the voters.

John Pressgrove Asks Re-election

John Pressgrove, frequently spoken of as "one of the best Chancery Clerks in the State," has announced his candidacy for re-election in the August primary.

The office, as conducted by Mr. Pressgrove, was recently commended by auditors from the State Auditor's office, in making their report.

Mr. Pressgrove and his deputy have been found in place at all times—frequently under the most trying circumstances due to the generally depressed conditions that have existed everywhere during his tenure in office.

Known to his acquaintances, generally, as "John," he has served in a courteous and affable manner.

A fair and impartial consideration is asked in his behalf.

Mr. Pressgrove has prepared a brief statement of his own, which is published next following.

To the People of Grenada County:

When I first offered for the office of Chancery Clerk my plea was to give a young man a chance. You were good enough to give me this chance and I have tried during my term of office to give you prompt, efficient and accomodating service, not to the profit of a select few but to the entire citizenship of Grenada county.

It has been my privilege to serve you during the most trying times of our generation. For that reason I have realized that the people should have an economical administration of their affairs and during [illegible] county has been increased by more than $300,000.00 or about 50 percent and the surplus of the county has been increased in proportion. This has been done although taxes during this time have been relatively lower than at any time since 1918.

As to the manner the records have been kept I quote you from the audit recently completed in our county, "This examination and your accounts and records was made less difficult by the splendid cooperation rendered by your County Auditor and his assistant. This office deserves commendation for the excellent and efficient manner in which the accounts and records of his office are being kept."

There have been two complete audits of this office covering the entire period that I have been clerk and there has not been found one penny's error or any criticism of the manner of conducting this office in any way.

During the past year the first modern accounting system in the State was installed in my office, a system that is the last work in municipal accounting and one that will give the tax payers a clear insight into their business.

To the hundreds of friends that have volunteered their support I am deeply appreciative and it will be my aim to see all of you in person before the election.

Assuring you that if again honored at your hands I will give you the best service at my command.

Cordially yours,
John P. Pressgrove.

Manager Makes Statement

As manager of the T. C. S Store in Grenada, I wish to say first and last that I LIKE GRENADA and that means that I'm confident that I will like the Grenada people. I've already met quite a few prominent citizens, and their hearty handshakes assured me that I picked the right little city for my company's store.

Your Postmaster showed that age-old Southern hospitality. His personal greeting made me feel mighty good, and from now on I shall devote every spare moment that I have in boasting Good Old Grenada. She's a Grand Town, and IF I CAN DO SOMETHING TO HELP MAKE IT GRANDER—I shall join in with a smile and give you every ounce of cooperation I can.

We have labored away almost day and night in preparing OUR STORE and OUR STOCK for you. And when the clock strikes "NINE" Saturday Morning — We Shall Be Ready, and I shall be at the door to EXTEND YOU A HEARTY WELCOME.

Carloads of merchandise have arrived for our OPENING EVENT, but many shipments are still in transit and will be COMING IN almost every day during the progress of this sale. So I ask you kindly not to feel disappointed if you don't find exactly the item you want on your first visit. JUST KEEP COMING to the T. C. S. STORE and within a week or so you'll find the most complete selection of popular-priced merchandise available in the largest department store.

We shall coach our SALESFORCE to extend TO YOU the courtesy you deserve, and I know that you'll find this store A MIGHTY PLEASANT PLACE and a MIGHT PROFITABLE PLACE for your shopping.

Cordially Yours,

M. Finkelstein,
Manager T. C. S. Store.

LOCAL NEWS

Garden Club Meets

Mrs. Jay Gore was hostess to the Grenada Garden Club Thursday afternoon. There was an unusually large attendance with each member answering the roll call with the name of some famous garden.

The program consisted of two very interesting papers, Mrs. W. E. Jackson gave "Washington In Bloom,' and Mrs. Robert Sharp "The Belling Grath Gardens." They showel postcord scenes which made their papers very interesting. Mrs. Jackson also showed scenes of beautiful flowers which she saw on her recent trip to Florida, which was enjoyed very much.

There were a number of pretty as well as unique containers of beautiful spring flowers brought by members of the club to be judged for the best arrangement of flowers which was won by Mrs. Bryan Revell and she received a beautiful pot plant as a reward.

Several new members were enrolled and several guests were present. All enjoyed the meeting very much.—Reporter.

Mardi Gras festivities next on program. Afternoon Mardi Gras Circus at Community House at 4 o'clock, 10 admission.

Duplicate Club Meets

The Tuesday Duplicate Bridge Club met yesterday afternoon with Mrs. Fisher Oltenburg.

Mrs. P. T. LaGrone and Mrs. L. E. Noble won high score and Mrs. Sam Hall Garner and Mrs. Chas. Ransom tied Mrs. Rogers Burt and Mrs. Joe Neely for second.

Guests of the club were Mesdames S. H. Garner, Walter Garner, Orley Lily, Sam Mitchell and Rogers Burt.

The hostess served delicious salad, sandwiches and Coca-Cola.

Miss Nellie Quinn Hayden On M. S. C. W. Program

M. S. C. W., Columbus, Miss—Miss Nellie Quinn Hayden, of Holcomb, Junior at Mississippi State College for Women, minor in piano was participant in a Junior Evening program given by the Department of Music at Music Hall Ahditorium night of February 17.

Miss Hayden gave two numbers, Fantasie in C Minor, by Bach, and Polonaise in E Flat Minor by Chopin.

Miss Hayden is a member of the Bach Society of M. S. C. W. Her playing shows excellent accomplishment and skill.

Mr. and Mrs. Roy Burt, Mr. and Mrs. Ben Kavanaugh, of Winona, attended the Mardi Gras Ball Friday night.

Mr. and Mrs. Geo. McMurray, of Jackson, spent the week-end here with Mr. and Mrs. Cowles Horton.

STRAYED OR STOLEN: Black mule about 18 hands high, long body, short straight ears, mouse colored mouth, long husky tail, right leg has knot like wind on inside of knee. $5.00 reward for return. Quiness Jones at Mr. Cains, R. R. Baker Place, Star Route.

Does Bladder Irritation
WAKE YOU UP? Its not normal It's nature's warning "Danger Ahead.' Your 25c back if this 4-day treatment does not help nature flush excess acid from the kidneys. Excess acids can cause the irritation resulting in getting up nights, frequent or scanty flow, burning, backache or leg pains. Just say Bukets (25c) to any druggist. Locally at CORNER DRUG Store.

FOR RENT: 300 acres cultivatable land. Thorough improvements. Will lease for two years. See The Grenada Sentinel.

STRAYED: Two Jersey male calves. One has horn broken. Phone 288, D. D. Smith.

Presbyterian Auxiliary

Circle No. 1 met with Mrs. Geo. Grandberry, with 12 members present.

Mrs. Harry Adams had charge of a very interesting program after which the hostess served, bouillion, open face olive sandwiches, cheese straws and cookies.

Circles No. 2 and 3 met at the home of Mrs. Ernestine Martin with Mrs. Martin and Mrs. Claud Jones as hostesses.

Circle No. 2 had 15 present and No. 3 had 17 present.

Mrs. W. D. Salmon led the devotional. A foreign mission program was given.

After the program the hostess served delicious refreshments.

Methodist Missionary Society

The Missionary Society met at the church Monday afternoon at 3 o'clock.

There was a short business session after which a very interesting program was given with Mrs. Roy Grisham as leader. The subject was: "Widening the Horizon of The Home." Mrs. P. F. Jobe gave a leaflet, and Mrs. R. A. Clanton closed the meeting with a prayer.

Mrs. R. B. Thomas, Mrs. R. Pressgrove and Mrs. G. F. Deaton went to Courtland Wednesday to attend and assist with the Panola County Wide Missission Study.

Baptist Missionary meetings. Circle No. 1 met with Mrs. O. L. Kimbrough; Circle No. 2 met with Mrs. D. M. Taylor; Circle No. 3 met with Mrs. J. C. Prose; Circle No. 4 with Mrs. W. E. Boushe; Circle No. 5 at the church. All had a large attendance and studied "The Book of Prayer."

Mrs. S. L. Reeves, of Weatherford, Texas, is visiting her sisters, Miss Jane Young, Mrs. Harry Adams and Mrs. Ben Adams, Rev. John Young and family, of Jackson, spent the week-end with them and held services at the Presbyterian Church Sunday.

Mrs. Cas Ed Heath and little son, Cas Ed, Jr., accompanied Mr. and Mrs. J. G. Stuckey to their home in Pepanto, Ark., for a visit.

The Grenada U. D. C. Chapter will meet this afternoon3 at o'clock with Misses Fannie Lee and Clyde Parker of Graysport.

Mrs. Carrie Allison and daughter, Bonnie Jean, and Mrs. Bell James spent the wek-end in Cleveland. Mrs. Allison went over to meet her son, Jones, who was over there for the week-end from Wesson, Miss.

Jessie Cox, of Greenville, spent Sunday in Grenada.

Mrs. Ruby Morgan and daughter, Joy of Holcomb spent Tuesday night with her sister.

Mr. and Mrs. R. C. Kerr, of Memphis, spent the wek-end with Mr. and Mrs. Grady Triplett.

Miss Ann Neely, who was home for the week-end and attended the Mardi Gras Ball returned to her work at M. S. C. W. Sunday.

Miss Sarah Bell of Poplar Bluff, Mo., spent the week-end with her mother, Mrs. C. T. Bell and family.

The many friends of Mr. Claud Hall will be glad to learn that he is able to be out on the streets again, following an operation and a long convalescent period, during which he was a shut in at his home.

Snider Addresses Safety Council

JACKSON, Miss. — Lieut.-Gov. J. B. Snider today urged a reduction in homicide and highway fatality records in order to attract industries and investors to Mississippi.

Speaking before the Southern Safety Conference, Snider linked state's industrial development with safety measures, and said deaths on the highway and by murder in Mississippi were the highest in the United States.

Referring to the state's economic problems, he estimated the annual income of a resident at $212 and said, "we carry the heaviest tax burden per dollar of real wealth of any state."

He also recommended that 200,000 able-bodied persons be removed from farms because "the farms cannot support them."

Records indicate that in the years past all successful candidates carried announcements in The Sentinel.

Power Deal to Benefit Miss. Po & L. Users

JACKSON, Miss.—Following recent announcement in Memphis as to the sale of the electric power system of that city, Rex I. Brown, President of Mississippi Power and Light Company comemnted today on the subject of his company purchasing some TVA power as follows:

"The sale memorandum agreeemnt concluded in Memphis between the Tennessee Valley Authority and certain other parties in Memphis, involved the problem of assuring an adequate supply of electricity to that city on the part of the TVA which ultimately is to be responsible for the power supply.

"The agreement provides generally that TVA is to benefit by having surplus use of certain inter-connecting transmission lines of the Mississippi Power and Light Company in the northern section of the latters system. By arranging for use of such lines TVA will make available an additional transmission route to get some of its pwer into Memphis and at the same time TVA will secure a second source of supply from Memphis for its present loads in Northeastern Mississippi.

"In return for such use of lines of the Mississippi Power and Light Company System, the sales memorandum agreement has further provisions under which TVA is to sell certain electric service to the Mississippi company on a long-term contract basis. The general apreeemnt is that the Miss. P. and L. Company "may receive a limited amount of firm power and is to receive run-of-river secondary energy and dump energy. Miss. P. & L. to pass on to its customers part of the savings effected by reason of the Mississippi Power and Light and TVA contract.

"Such power as may be purchased as a result of the new interconnection and stand by arrangements with TVA, will, as loads grow in the future, supplement favorable present arrangeemnts under which M. P. & L. will continue to secure its primary power and energy requirements from the Louisiana Power and Light Company system, served by the latters low cost Sterlington steam generating plant in the northern Louisiana gas fields."

Mr. Brown further stated that his company was glad to be able to cooperate in working out the situation and was particularly happy that as a result, it will be possible to have applicable benefits flow to the customers of the Mississippi Power and Light Company. Work is to continue immediately on completion of the necessary legal documents, and as soon as these are finished complete inforamtion as to the entire agreement will be made public.

Abe Blumenthal

HOLLY SPRINGS, Miss., Feb. 17.—Abe Blumenthal, 75, a colorful character known all over Mississippi and adjoining states, died this morning at 6 o'clock after an illness of several months.

He was the son of the late I. D. Blumenthal and the brother of the late Morris Blumenthal, both prominent merchants of Holly Springs. When 14, he learned typesetting and started out as a wandering printer. He worked on papers in Mississippi, Memphis, Chattanooga, Birmingham and New Orleans.

No inducement from his father or brother was able to keep him at home. Filled with the wanderlust, he traveled from place to place until he was too old.

He will be buried Sunday afternoon at 3 o'clock in the Jewish Cemetery in Memphis. Rabbi Harry W. Ettelson will conduct the funeral services.

Susan Proby Queen Of Mardi Gras

Immediately after the opening of an envelope which had been presented by "Bubber" Jordan, the selection of Miss Susan Proby as Queen of Mardi Gras was announced last night at the dance in the High Hih School Gymnasium. Earl Burkley reigned as "King" of the event.

Retiring Royalty—the selections for 1938—was Mr. J. B. Perry, Jr. and Miss Ann Neely.

The selection of the Queen of Mardi Gras and an annual ball is sponsored by the ladies of the Episcopal Church.

The Sentinel has stood the test.

Our Charity Hospitals—

It is truly a deplorable condition when an announcement is sent forth that a patient afflicted with menengitis at the State Charity Hospital cannot be treated because the institution has no funds with which to buy serum, costing $25.

Publication of the story Tuesday morning caused a collection to be taken at the city hall and sent to the superintendent of the institution.

The phrase, "cold as charity," aptly applies to the niggardly way our legislature has dealt with the Charity Hospital in this city and similar institutons at other points in the state.

A "pork barrel," hospital appropriation bill is passed each year for maintenance of charity wards in private or semi-private hospitals much of it is wasted, and the budgets for institutions owned by the state, and for which the commonwealth is morally responsible are cut to the quick, utterly inadequate for the purpose for which voted.

The charity hospital situation in Mississippi is rapidly becoming a scandal. Unless they are to be supported properly and adequate treatment for patients assured, they should be abolished.

Letting a human being suffer or die for lack of a $25 serum treatment is hardly short of barbarism.—Jackson Daily News.

How to Tell When It's Safe to Sow Seed

Average Date of Last Killing Frost for Principal Cities in U S

Christmas is a festival of spring. It is celebrated when the sun starts north from the equator. Newspaper headlines often proclaim that the shortest day of the year is the beginning of winter, but gardeners know better.

Once the days begin to lengthen, signs of spring appear in the garden. Buds swell, bark changes color, mysterious growth processes unfold even in the coldest weather. With many hardy plants, the perid of freezing is as necessary to their development as the warmth that follows.

Spring is near at hand and it is time to make plans for sowing seeds just as soon as it is safe. How can the safe date be determined?

We hear a great deal from weather prophets who claim secret system of predicting a season's temperature range or rainfall; and all of us at one time or another get an almanac which tells us definitely just how warm it will be on March twelfth or another day.

Refutation of weather prophecies may well be left to the weather itself. It can be depended upon to make ridiculous anyone who attempts to predict its course more than twenty-four hours in advance; a fact which the painstaking experts of the U. S. Weather Bureau can vouch for.

How then can the gardener be certain that when he plants he is free from danger of frost or other damaging weather? The answer is that he cannot, but he can be reasonably sure, so that only one year in ten will he suffer from the weather.

The law of averages proves to us that from year to year the mean temperature and the rainfall of a given location will vary but slightly. For spring planting the average is usually a month or less earlier than the latest killing frost; this means that you are reasonably sure that no damae will be done to hardy seeds if planted on this average date. Find out this date from your local weather bureau o one nearby. It varies as yu move away from the seashore in New York it is only 20 days, while in Chicago it is 36 days.

There are some types of vegetables that are not bothered by frost unless it is too heavy. The root crops and the leaf salad evgetables are among these and certain varieties of peas will withstand almost any amount.

It is a waste of seed to plant too early and a waste of time to start a day too late to make your calculations now, and you will be ready when planting season arrives.

Library Tour Begins Grenada Thursday

An inter-county library tour will began in Grenada today at 9:30 and will close in Louisville Friday afternoon. Library s upervisors from Chickasaw, Pontotoc, Calhoun, Montgomery and Carroll counties will be present. These ladies are Miss Evelyn Stone, Miss Mary Ella Spencer, Mrs. Mary Denley, Mrs. Ida Bounds, Mrs. Jerry Robinson. The following State and district officials are expected to attend, Mrs. Fair, Miss Robinson, Mrs. Gwin, Mrs. Harvey, Mrs. Diggs, Mrs. Whitfihead.

A thirty minute discussion of library work in general will be led by Miss Elizabeth Jones. Then a book repair session will be conducted by Miss Faye Griffith.

At 11:30 the group will go, via the Duck Hill Library, to Winona where luncheon will be served. A tour of the Carrollton Library will follow and the meeting will be dismissed in Grenada at 3:00 to reconvene in Louisville the next morning. A similar program will b planned there for Choctaw, Attala, Grenada, Webster, and Winston counties. We feel that much benefit will be derived from this interchange of ideas and problems.

Twentieth Century Club

The 20th Century Club met Tuesday in the home of Mrs. R. W. Sharp, Mrs. W. B. Waterman was co-hostess with Mrs. Sharp.

A salad course with sandwiches and coffee was served before the program.

Miss Mary Hall and Mrs. Noel were guests besides the 26 members.

The program was on Crime Problems. Mrs. Earl Bailey gave a very interesting paper on "Considering The Problem of Crime," from H. A. Overtsreet.

Mrs. R. A. Clanton discussed E. Jerome Ellison's look on Justice Shifts Into High.

Miss Estelle Turner gave a splendid short talk on "Keep Your Convicts," by Christopher Rollman.

Interesting current events on crime were given in answer to roll call.

Use More Cotton Goods

A campaign to get farm people to buy more cotton goods and to make greater use of cotton materials is proving effective in Sunflower county. The campaign is being sponsored by County Agent Aubrey Carpenter and the county farm bureau.

Plans have already been completed for using cotton bags for this year's oat crop and ginners are planning to use only cotton bagging to wrap the 1939 cotton crop.

Here are some of the suggestions made on posters which are being widely distributed inthe county:

1. Use all cotton possible in your own wearing apparel.
2. See that your household furnishings cotton be used.
3. Talk cotton uses to your friends, acquaintances and all people.
4. Demand all commodities you purchase from your merchant have cotton containers.
5. Demand your cotton bales be wrapped in cotton bagging, and cotton see and by products, cotton sacks be used.
6. Use your benefit checks coming soon in buying cotton goods. Do not accept substitutes but ask for goods made of all cotton.

"Do this and help to reduce this large surplus, which is cause of low prices and cheap cotton for many years to come. Remember your government checks are made possible by our cotton program and all we can do along this line is by cooperating fully and helping future of cotton."

Abductor Faces Life Imprisonment

PASADENA, Cal. — Townsend Davis, 40, lanky church organist, faced life imprisonment today for the abduction of eight-year-old Anne Louise Sweitzer and several moral offenses which police said he admitted committing upon her.

The child stealing charge which the parents of Anne Louise filed yesterday, when she and Davis were brought back from a flight across state, would, police said, be bolstered by at least four other felony counts. They said he had confessed he ravished the child that number of times, twice in an automobile court in the desert of Indio Sunday during their flight.

Child stealing carries a maximum prison sentence of from 10 to 20 years and conviction on the morals counts would imprison Davis the remainder of his life. Police questioned him today about other attacks on children in the same neighborhood in which the Sweitzer child lives.

When the organist was returned with Anne Louise yesterday, her father, Ralph Sweitzer, was only prevented from attacking him by a guard of husky police. A World War veteran, partly disabled, he lunged at Davis with an oath but was quickly suppressed.

The child, once home, was horrified by what she had done. Though she had said, when police halted Davis' car at the Arizona line, that she did not want to return home, today she sobbingly said she was glad it was all over and she was again with her parents.

Davis took her from a playground Sunday. For days he had cultivated her friendship with favors.

In the Chancery Court of Grenada County Mississippi.
No. 5282
In the Matter of the Validation of $3500.00 (THREE THOUSAND FIVE HUNDRED DOLLARS) OF LOAN WARRANTS OF SEPARATE ROAD DISTRICT NUMBER THREE OF GRENADA COUNTY, MISSISSIPPI, issued for the use and benefit of said District, as described in the resolution, order and proceedings of the Board of Supervisors of said County, adopted and approved at the regular February, 1939 meeting of the Board.

To the Tax Payers of the Separate Road District Number Three of Grenada County, Mississippi:

NOTICE

You are hereby notified that the matter of the Validation of the above mentioned Loan Warrants will come on for hearing before the Chancellor at the Court House of Grenada County, Mississippi, on the 3rd day of March, 1939, on or before which date, objections, if any, must be filed.

J. P. PRESSGROVE,
Chancery Clerk of Grenada County.

Apology Made To Britain

TOKYO — The war office announced today that an apology had been made to British authorities because of the bombing of British territory at Hong Kong by Japanese airplanes yesterday.

Admitting that the planes, while bombing Chinese territory near the Hong Kong area boundary, struck a locomotive in British territory, the war office described the incident as a regretable error.

J. L. Dodds, counselor of the British embassy, had previously made a verbal protest to the foreign office.

WOMAN, 100, In HOSPITAL FIRST TIME IN HER LIFE

AKRON, O.—Miss Julia Benedict is in the hospital for the first time, after passing the hardest years of her life—100 of them.

In gay spirits, however, she chats and jokes about her painful injury, incurred when she attempted to sit on her bed, but fell to the floor. The only thing Miss Benedict misses is her tatting.

Essay Contest For Senior Class

To County Superintendents and Superintendents of High Schools:

I wish to call your attention to the essay for members of the senior class in every high school in the state on the subject, "The Effects of the Use of Intoxicating Alcoholic Liquor as a Beverage." This contest is authorized by law in Section 5, Chapter 255 of the Laws of 1934.

Rules Governing Contest

All members of each high school senior class are eligible to enter this contest. The papers, which must be original, should be submitted to the teachers of the school, and they shall select the one which in their opinion is the best essay on the subject set forth above. The best essay from each school shall be sent to a committee of the county to be named by the county superintendent of education. This committee shall select the best essay of the county and forward it to the State Superintendent of Education. A state committee will be appointed whose duty will be to select from the essays submitted by the counties the one they consider the best. The essay should not be more than one thousand words in length and a suitable biographical sketch of the author should be submitted along with the essay. Bibliographical references and quotations should be cited at the bottom of each page. The sketch and references are not to be counted as part of the one thousand words.

The prize essay of each school should be submitted to the county superintendent or county committee on or before April 15. The one selected as the best for the county should be sent to the State Superintendent of Education not later than May 1.

Awards

The board of supervisors of each county is authorized in its discretion to contribute, not exceeding, $100.00 out of the general county fund toward paying the erpenses of the author of the county prize essay in attendance as a student at such college in Mississippi as the pupil may choose to attend. The pupil winning first prize in the state will be given a one year scholarship in any one of the state aided colleges and all service fees in such college.

Pupils from forty-six counties in the state participated in the contest last year, and it is our hope that a paper will be submitted from every county in the state this year. We feel that the teachers of every four year high school would be justified in requiring every senior to write an essay on this subject. It will not only give to them much valuable training and information but will aid some boy or girl materially in a year's work in college.

Please present this matter to your senior class at once and give all publicity possible to this contest.

With best wishes, I am
Cordially yours,
J. S. Vandiver,
State Supt. of Education.

Choose Place in the Sun For Your Vegetable Plot

Select Garden Location in A Careful Manner

Few properties are so laid out as to provide an ideal vegetable garden site. Shade trees the proximity of other buildings, the placing of the house on the ground space or other reasons are likely to interfere. It is necessay to take the lay of the land as it is and pick out a garden spot as good as may be had under the circumstances. In other words make the best of the situation.

The fact that the home site does not offer the ideal place for vegetables should not prevent an effort to grow vegetables. In no other way can really fresh and highest quality vegetables be obtained. Any piece of ground, even as small as 5 by 5 feet, will grow a supply of something in the way of vegetables. The size of an all around garden to supply to supply a season's vegetables for a family of five is 20 by 20 feet and from this size up.

There is only one absolute necessity in selecting the garden location and that is sunight for at least a portion of the day; the longer the garden may have sun the better. However, good gardens are often seen in city back yards which get only a few hours of sun daily. If the garden can have sun from nine in the omrning until three in the afternoon, any of the common vegetables can be grown successfully. Many of the standard vegetables can be grown with even less sun than this. This has been proven by an actual experiemntal test. It is not an experiemnt of dubious to try to grow vegetables on a partially shaded site.

Ideal soil isn't often found. Take the soil as you find it and proceed to build it up. This is no great task. The one feature to avoid is a low lying position that is always soggy and in which water is bound to stand after rains. This is one feature that bars a site for successful vegetables until drainage has been supplied.

MORE INTEREST IN TENNIS MATCHES

Last year Grenada was handicapped from the start in her fight to keep the Feld Meet cup. Winona had been able to build up a lead by winning points in debating and tennis. This year Grenada High's debating team has won the ten points offered in the debating contest. Now it is up to the tennis hopefuls to get busy and try to win their part of the events. Until this year our tennis teams have been hampered by the lack of a good place to practice. This year, however, Mr. Rundle has secured permission for the members of the team to use the McClain court. In order to use this court there must be work done upon it. If you play a good game of tennis come and try for the tennis team. If a great number apply perhaps we can uncover some good players.

There is but a little time left now for preparation for Field Meet Activities. The participants are to be chosen on the twenty-fifth of this month. That leaves about three or four weeks for preparation by those participating in the events.

One field or event in which a great deal of preparation in memorizing and delivery, etc. is required is declamation, an event of exceeding importance. Participants in declamation must be able to speak extraordinarily well. As this is so, there are only a few who can possibly take part in this activity. Those few who are capable of delivering words with meaning and expression, and who are able to speak well on the platform should be more than willing to cooperate with the school in representing the school in field meet. Mrs. Hathorn will gladly cooperate in coaching the contestants who wish to enter the contest.

Won't you who feel that you are capable of doing so, offer your services, and go out to Field Meet to represent Grenada High? If you are asked to go, then don't refuse; show your cooperative spirit by your willingness to participate in these contests. Grenada High needs your help!

REV. WILEY VISITS SCHOOL

On Wednesday, February 15, the students were honored by the presence of Rev. Wiley. After the students had sung two songs, Rev. Wiley rendered an inspiring talk with the theme "Happiness." He said that the students are happier, and deriving more from life now while they are young than they will in future years, though they may not be inclined to think so now. Rev. Wiley gave several definitions of happiness, each a quotation from some well-known writers.

STUDENTS DISTINGUISHED IN COLEGE

A number of former graduates of Grenada High have won distinction in the various colleges which they are attending.

Bobby Sharp has been chosen as one of two in his section ranking highest in English.

Clyde Horn has also rated well in English.

Etoile Dubard has been elected to the Bluebonnet Staff at Baylor-Belton Univeristy.

Frank Horton is president of the Freshman Law Class.

James Prose has been chosen Treasurer of Theta Zi Fraternity at L. S. U.

Cora Mullin is one of a group of girls from Stephens College to take a tour through Washington, where she will be a guest at a reception to be given by Mrs. Franklin D. Roosevelt. The girls will also include New York, and other places of interest in their tour, and will participate in a number of entertainments.

Cleon Proby has been elected vice president of Mississippi College Band.

Grenada High is always proud to receive such encouraging reports from those students who formerly were a part of Grenada High

News of other former G. H. S. pupils now in college will be acknowledged when received.

DEBATERS SPEAK IN LOCAL CLUBS

The four distinguished debaters, from Grenada High, who recently were announced co-champion debaters of Mississippi, and who have won other distinctions as well, spoke last week in two of the local clubs.

On Tuesday, February 14, the negative speakers, Dick Rule, and Claud Parks, delivered their oration in the Rotary Club, and on Friday, February 17, the Lion's Club had the privilege of hearing the affirmative side of the question for debate, given by Susan Proby and Paul Lockett.

GIRL RESERVES MEET

The Girl Reserves had the pleasure of having Mr. Rundle as speaker at their meeting Tuesday, February 14. The program was based on the negro problem. Mr. Rundle gave a splendid talk on the Advancement of the Negro Through Education, Sue Vandiver and Mary Douglas Hall told the lives of a few outstanding negroes.

These students who are in training and are to participate in the preliminary declamation and reading contests are:

For the boys: Dick Rule, William Winter, Francis Hill, Rice York, and Floyd Theisman.

For the girls: Sara Lou Abel, Beulah Abel, Annie Odom, Dorothy Whitaker, Catherine Harrison, Cammie Lou Hallam, Bernice Jones, Frances Guidry, Ruth Talbert, Laverne Wilson, Betty Esther Edwards, and Marglerite Stanley.

These students will participate in the preliminary readings and declamation. Those who are considered the best speakers will be chosen to represent Grenada in the regional field meet to be held in April.

SENIORS TO TAKE CENSUS

This year, the Seniors, have been given the privilege of taking a census of all the educable children in the district. For each name submitted, the school will receive about $5 fro mthe state. The Seniors are energentically participating in this work; if a Senior comes to your door, he only wishes to secure all the names of educable children in your family.

SENIORS TO WRITE ESSAY

Each year, according to the law of Mississippi, each Senior must write an essay on "The Effect of Alcohol on the Human Body." The best essay from each district will have a chance of winning first place in the state. The prize for the best essay is a $100 scholarship to any college in the state. Also, if the student wishes to do so, he may submit his essary to the P. T. A. for which, if he wins first place, he will be awarded a $2.50 prize.

G. H. S. CHATTERBOX

The Chatterbox would like to correct a mistake it made a few weeks ago. It sems that Gus is not interested in any of the little girls we once thought he was, but a brand new one. This time it's a dignified Senior. Ask Helen where she got that box of Valentine candy.

Clifford definitely has it bad. I wonder what Laurie Mae would say if she knew what is going on over here in Grenada. But maybe he sent her a box of candy on Valentine, too.

Dick seems to be terribly worried about something. Don't worry, Dick, we won't tell but just the same you should get a secretary to handle all your fan mail.

Jack Hudson seems to be all a-flutter. Just calm down, Jack, or Miss Clarksdale might not know how to take it. Of course, you can't expect her to know that you are just a good example of a jitterbug.

Is Roy Tilghman really taken over by Martha Jane Kettle, or is it just one of those Bookkeeping class crushes like Edith Penn and Jack Butler?

Camilla and Mickey seem to have it just as bad as they ever did. One would have thought that it wouldn't have lasted this long but it must be the real thing.

Charlene, you had better watch out or John will be wandering back to Rachael. He is taking her to the Mardi Gras Ball, isn't he?

Nina Mae, doesn't seem to notice Pearidge. After all, Nina, there is a little resembdance between him and Raymond. If you could only see that loving look he gives you I'm sure you could not help seeing him differently.

Noted Hebrew Christian At First Baptist Sunday

Descriptions of conditions in Germany and Palestine today, based upon personal observation, will be given in two lectures here Sunday by Joseph Cohen, of New York City, author of the book, "The Jewish-Christian Tragedy," and former editor of the "Hebrew Christian." Of Jewish blood, Mr. Cohen is a Christian in religion.

He was educated at the University of Chicago and the Southwestern Baptist Seminary at Fort Worth, Texas. From the first week in February to the last week in June, 1938 he traveled in Germany, Palestine and Russia and his lectures are based on his observation there.

At 11 a. m. Sunday he will speak at the First Baptist Church on "Germany, Hitler and the Jews," prophecy.

He will climax his program for the day with an illustrated lecture on "The World Famous Jewish Passover Feast," at 2:30 p. m. at the First Baptist Church. In this lecture he will use gold and silver dishes, golden candelabra, and the silken robes (known to the Jews as Phylacteries and Thurim,) to perfect the "seating as it was 1900 years ago."

Everyone is invited to hear his lecture. he announced his 2:30 engagement at the First Baptist Church at a mass meeting.

Horrors

While visiting in Germnay he says he witnessed unspeakable horrors. In one town he said there were 11 Jewish funerals in one day—three wealthy Jews who had committed suicide, one who had died a natural death, and seven who were "executed" under circumstances unknown. Probably the greatest wave of suicide in history is sweeping the Jewish population in Germany, according to Mr. Cohen. He says he has seen synagogues burned and their Torahs desecrated and thrown into the streets, orphans desolated and children brutally treated. He says he is unable to erase from his memory visions of the faces of Nazis' victims held in concentration camps.

As to the Palestine situation he commented briefly:

"The Jews that have gone to Palestine are the real pioneers of the present. They are carrying on despite innumerable hardships and are fired with zeal to establish a new home."

Details on that subject will be given in his Sunday morning lecture at the First Baptist Church.

Mr. Cohen says he doubts that there will be war in Europe for at least three years.

"I think the greatest harm the dictators have done has been to the religious world," he said. "The Jews are not the only ones being persecuted. There are 1,200,000 Christians, includes 300,000 Catholics and 700,000 Jews who have become refugees because of dictators. Eleven billion dollars have been confiscated in Central Europe, there are 70,000 Jewish orphans; 40,000 persons have committed suicide (2,000 in the first month after Hitler entered Austria); 700 Jewish synagogues have been burned, and all Jewish orphanages have been destroyed; 2,500 Protestant ministers and Catholic priests have been imprisoned; the leading Protestant ministers in Europe, Reverend Neimueller of the Christ Cathedral in Berlin, has been imprisoned for 20 months.

"As to war, I don't think any country in Europe can afford war. In Germany the food is almost on wartime ration basis. Many of the German poor have ben forced to eat soup made of potato peelings—how can Germany afford war?"

THE MAN WITH THE HOE SAYS

Plant breeders are rapidly eliminating the core from the carrotand the zoning from the beet. Long ago the sting was bred out of the bean.

Because leaf lettuce is demanded by hotels and restaurants for fine salads, it is grown extensively in greenhouses all winter. Home gardeners may enjoy it all summer at small expense.

Soil which is frozen should be thawed out gradually for seed bob use. Quick drying tends to form hard lumps. After it is sifted, baking in a hot oven for half an hour will kill fungi and weed seeds.

The best recipe for good health: Grow your own vegetables and eat them.

Guard Rails Protect Motorists Along U. S. 51

Heavy steel guard rails line hilly sections of U. S. Highway 51 south of Grenada, providing another safeguard for Mississippi motorists, whose highways are ranked among the safest in the nation.

666 SALVE relieves COLDS
Liquid Tablets Salve, Nose Drops
price 10c & 25c

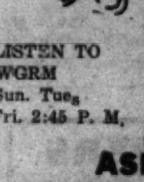
Bronchial Coughs Need Creomulsion

Just a common cough, a chest cold, or a bronchial irritation of today may lead to serious trouble tomorrow. They may be relieved now with Creomulsion, an emulsified Creosote that is pleasant to take. Creomulsion is a medicinal combination designed to aid nature in soothing and healing infected mucous membranes by allaying irritation and inflammation and by aiding in loosening and expelling germ-laden phlegm.

● The Medical Profession has for generations recognized the beneficial effect of Beechwood Creosote in the treatment of coughs, chest colds, and bronchial irritations. A special process was worked out by a chemist, for blending Creosote with other ingredients so that now in Creomulsion you get a good dose of genuine Beechwood Creosote which is palatable and may be taken frequently by both adults and children. ●

Creomulsion is one preparation that goes to the very seat of the trouble to help loosen and expel germ-laden phlegm. When coughs, chest colds and bronchial troubles due to common colds hang on, get a bottle of Creomulsion from your druggist, use it as directed and if you are not satisfied with the relief obtained, the druggist is authorized to refund your money. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

READY— for EMERGENCIES NOW!



LISTEN TO WGRM Sun. Tues. Fri. 2:45 P. M.

At last! You need no longer suffer the agony of muscular aches and pains — the misery of colds — the torture of sprains and swollen joints. Now you can be ready for such emergencies with Hannon's Emergency Medicine—the amazing modern home remedy. Try it! Always keep it handy. It's dependable and pleasant to use, but most important, it gives quick, soothing relief—usually within three minutes.

HERE, MR. TAXPAYER IS A MILLION DOLLARS A DAY To Lighten Your Tax Burden

BEER CONTRIBUTES ANNUALLY IN LOCAL, FEDERAL AND STATE TAXES AROUND 400 MILLION DOLLARS

BEER PAYS A MILLION DOLLARS A DAY IN TAXES NATION-WIDE

HERE, MR. WORKMAN, ARE A MILLION JOBS CREATED BY BEER

SEE how many public benefits brewing has helped create in only five years! How can the brewing industry preserve these benefits for the people and itself?

The answer, brewers realize, ties in with the distribution of their mild, wholesome beverage through responsible retail outlets. Obviously, the brewers can enforce no laws. But they can —and will—cooperate with all law enforcement authorities to the end that retail beer outlets give no offense to anyone.

May we send you a booklet giving interesting facts about beer, and discussing the brewers' self-regulatory program? Address: United Brewers Industrial Foundation, 19 East 40th Street, New York, N. Y.

BEER...a beverage of moderation

Brazilian Officer Is Killed in Air Crash

PENSACOLA, Florida — A flight of 12 navy pursuit planes circled for five hours last night, vainly waiting for a hole in a heavy fog to come in for a landing at the Pensacola Naval Training Station. When their gasoline was exhausted, seven planes crashed.

One pilot was killed and another was missing.

Lieut. G. F. Presa of the Brazilian Navy "courtesy student" at the training station under the good neighbor polily was killed. Cadet N. M. Ostergren, pilot of another of the training ships was missing and it was believed his plane was down in Pensacola Bay.

Five single seaters landed without mishap, over a wide area, in northwest Florida and Southeast Alabama.

Press died when his plane crashed and burned near Corad field here. He and Ostergen apparently stayed with their ships in an attempt to land blindly in the dense banks of fogs. Other pilots of the seven ships which crashed, abandoned their ships and parachuted safely to earth.

The fight of a dozen planes with advanced student fliers at their controls, took off just after dusk Monday for night training maneuvers.

NUTRITION LEADERS HOME DEM. MEETING

ing and should be cheaper than was held Wednesday, February 15, in the Community House. Miss Bee Rice, from the Wheat Flour Institute, Louisville, Kentucky, gave demonstrations of pastry, quick yeast bread and one egg cake Ten clubs were represented. The following are the women who attended the meeting:

ALLENWILD, Mrs. W.V. Higgenbotham, Mrs. J. Y. Smith, Mrs. Eugene Payne, Mrs. F. A. Kincaid Mrs. E. C. Barnett. ELLIOTT, Mrs. J. W. Jordan, Mrs. T. T. Hayward, Mrs. A. M. Yopp; GORE SPIRNGS, Mrs. Guy James, Mrs. Howard James, Mrs. Gene Gillon; GRAYSPORT, Mrs. Wayne Koonce Mrs. Albert Hayward; RIVERDALE, Miss Edith James, Mrs. E. L. Boteler, Mrs. W. N. Hayward, MITCHELL, Mrs. Mary Cohea, Mrs. O'Brien, Mrs. Worsham, Mrs. Cole; HOLCOMB, Mrs. W. D. HANNON'S EMERGENCY Medicine

Yard Beautiful

It is difficult to picture in our mind the baby in a crib as a six-foot man. It would be even more difficult to imagine the six-foot man that the baby will eventually become sleeping in a four-foot crib!

Likewise, it is hard for the average person to realize how large a little six-foot tree will grow. Time and again I have seen American elm, Chinese elm, hackberry, oak and ash planted too close together the trees will eventuelly suffer and you will regret your lack of foresight.

A garden club member was heard giving a fine impromptu talk to the nurserymen at their convention. Her subject was: "The Kind of Nursery Salesman I like" What kind did she like? Listen to this:

"When I first started planting trees and shrubs on my place I wanted every kind of shrub I saw in the catalogues-including some some fruit trees. Our lot was not very large, but neither were the very large but neither were the little nursery plants. I couldn't see why my wish for many kinds should not be granted, even though my nurseryman insisted there wasn't room. Finally, we compromised, my plan of close planting being followed in the foundation planting and the fruit trees; his plan of adequate spacing, in the border planting and shade trees.

"Now I see that my friend the nurseryman was right, and I was wrong. Those little plants have grown into large shrubs and trees with only half enough room-pear branches are over in peach trees, beautiful evergreens are crowding each other out of the picture and I'm worried sick.

"But the srub border and shade trees that were properly spaced are becoming a thing of beauty. Next time I will accept the advice of my nurseryman and give my plants adequate spacing."

ROTARY PROGRAM ON COTTON PRODUCTS

Members of the local Rotary Club saw a delightful technicolor picture on cotton culture, and the uses of bi-products of the cotton boll today.

The picture is spnsored by the Mississippi Cottonseed Crushers Association.

WHEN SHEETS ARE ON SALE

By Lottie Wood, Home Dem. Agt.

Thrifty house wives who wait for midwinter white sales to stock up on sheets, pillowcases, and other which is firm in weave, practically mind when choosing a good sheet, household textiles, may wish to check over the points to have in free from sizing, is torn rather than cut from the bolt, and is hemmed with strong thread and short even stitches, about 12 to 14 to the insh.

In general, sheets with low low thread count are course and sleazy. The more yarns to the inch in each direction, the firmer the weave. Satisfactory everyday muslin sheets have a finished thread count ranging from 70 to 80 in the warp and from 61 to 70 in the filling.

Good durable sheets are made in many different weights. Medium weight sheets run 4 to 4½ ounces per square yard.

The most satisfactory length is from 99 to 108 inches. Widths run from 63 inches for a single bed, 72 inches for a twin or three-quarter bed, to 81 or 90 inches for a double bed. Bargains in sheets are often smaller.

Sheets marked "firsts" should be practically free from weaving imperfections, such as uneven yarns, or thick or thin places. Seconds may contain some weaving defects and imperfect yarns, but if they do not weaken the sheet in any way, they may be worth buying and should be cheaper than firsts. "Pure finish" means that only the warp yarns have been sized to prevent breaking in the loom. Heavy sizing often covers up loose, sleazy weave.

Tests made by the Bureau of Home Economics of the U. S. Department of Agriculture in which a set of sheets was laundered after every night use in a hotel indicate that all were servicable until laundered 197 times and some lasted through 252 launderings.

Mr. and Mrs. G. W. Lambert and Mr. and Mrs. A. S. Campbell, Jr., of Webb, have returned from a vacation trip to Florida.

Grenada Hi Win 12, Lose Six Games

(By Sue Collins)

The Grenada High basketball boys have just closed one of their most successful campaigns, by winning twelve and losing only six games. The Bulldogs registered a total of 510 points to their opponents' 306. Grenada averaged 27 tallies per tilt to their opponents' 17. Long and lanky Cecil Hendricks led the scoring for the Bulldogs with 153 points to his credit; Flashy Volner Wilson came second with 135; Captain Robert Murphy, third with 113; Scrappy Paul Lockett, fourth with 45; Thomas Houston, 16; Jack Ward, 15; Jack Vance, 10; John Vickory, 10; Julian Wilson, 8; and Thomas D. McLeod, 5. Other players that were on the squad were Sidney Kettle and Kenneth Naff. The Bulldogs have a good chance to have an excellent team next season, but will miss Captain Murphy, Lockett and Vance, who are graduating.

Much of the team's success is due to the efficient training of Coach Slaton, who in a few weeks drilled the team so that it made an excellent showing even with opponents that play basketball the year round instead of merely during basketball season.

The Bulldogs' Record For This Season

Opponent	Score	Grenada's Score
Payne	31	25
Duck Hill	23	17
Coffeeville	16	26
Charleston	10	30
Charleston	13	52
Water Valley	16	40
Cascilla	29	24
Alva	29	22
Duck Hill	10	27
Payne	26	27
Cascilla	24	13
Duck Hill	13	24
Gore Springs	5	34
Sardis	11	25
Sardis	15	29
Water Valley	14	40
Charleston	13	37
Alva	20	18

Grenada girls' basketball schedule, 1938-39.

Dec. 2, Payne 32, Grenada 28.

Dec. 6, Duck Hill 44, Grenada 35.

Dec. 13, Coffeeville 15, Grenada 18.

Dec. 16, Charleston 16, Grenada 12.

Dec. 20, Charleston 28, Grenada 35.

Jan. 6, Water Valley 25, Grenada 24.

Jan. 10, Cascilla 39, Grenada 28.

Jan. 13, Alva 26, Grenada 15.

Jan. 19, Duck Hill 34, Grenada 16.

Jan. 24, Duck Hill 33, Grenada 33.

Jan. 27, Gore Springs 12, Grenada 9.

Jan. 31, Sardis 10, Grenada 18.

Feb. 3, Sardis 21, Grenada 17.

Feb. 10, Water Valley 26, Grenada 19.

Feb. 17, Valley 19, Grenada 27.

Feb. 18, Spring Hill 41, Grenada 12.

Players: Minnie F. Goodwin, Jewell Roumsaville, Marjorie Collins, Marjorie James, Lynn Theisman, Juanita Smith, Bobbie Gattis, Hazel Turner, Bill Lamar, Reba Vance, Susan Proby, Billy Guy Thomas, Vera Payne, Winona Grisham.

This season the girls have suffered more defeats than they have enjoyed victories, but we feel the deficiency was due to the current handicap under which they have been forced to pick their squad. So many of the girls live out of town and have found it difficult to come to practice. In spite of the many defeats the team feels that they have had a worthwhile season.

Final Basketball Tournament

On Saturday, February 25th basketball fans of Grenada and vicinity will have the opportunity of seeing the leading basketball teams of North Mississippi in action. The Final Tournament for the North Central Region will be held at this time. By preliminary tournaments the forty-five schools of the Region have been culled down to four boys and four girls teams. These teams will begin play in the Grenada High School gym at 1:30 p. m. During the afternoon four games will take place. The preliminary games wil lrun from 1:30 until 5:30. Admission to these games will be 15c for school children and 25c for adults. After the preliminary games there will be an intermission until 7:30 when the Final games will begin. Admission to the night games will be 20c and 30.

Episcopal Auxiliary

The Auxiliary met with Mrs. N. S. Craig yesterday afternoon with full attendance and discussed study work for the Linten Season.

Hopkins Campaign Is Becoming a Dud

WASHINGTON — Secretary of Commerce Harry L. Hopkins' first formal appearance as conciliator between business and the New Deal became embarrassingly involved today with 1940 presidential politics.

Hopkins left last night for Grinnell, Ia., to remain three days before delivering in Des Moines his widely publicized first address as the representative of business around the Roosevelt Cabinet table. His departure was preceded by dispatches from Des Moines that Democratic State Chairman Ed. H. Birmingham has undertaken to align 1940 Democratic National Convention delegates for Hopkins. He did not comment on that unexpected development.

The Iowa boom for Hopkins got a chilly reception here. Old line Democrats, battling now with President Roosevelt for control of next year's convention, generally concede Hopkins' administrative ability but they do not want him as their 1940 presidential candidate. There have been some indications, however, that Mr. Roosevelt might like Hopkins to succeed to the White House, provided, of course, there is no third term.

With emergence of the Hopkins boom—with or without his canction—Iowa comes up with two New Dealers either of whom probably would be acceptable to Mr. Roosevelt next year but against whom Postmaster General James A. Farley and a powerful bloc of Conservative Democrats would raise every available obstacle. The other Iowan is Secretary of Agriculture Henry A. Wallace. Wallace and Iowa are almost synonymous. Hopkins also is a tall corn boy, reared in Sioux City and educated at Grinnel College, where he will renew old acquaintances this week. But he has been away from the home town a long time.

Hopkins began reestablishing himself as an Iowan last year after long absence in social work in New York. He and James Roosevelt, then one of his father's White House Secretariat, intervened in the Iowa primary against Sen. Guy M. Gillette, D., Ia. Gillette was easily renominated and was re-elected.

There recently was a reconciliation of sorts between Hopkins and the Senator. But Gillette had no enthusiasm for Chairman Birmingham's reported plan to deliver Iowa's delegates next years to Hopkins. It was understood that Gillette intends now to support Wallace if he seeks the nomination.

Sen. Clyde L. Herring, D., Ia., told senate colleagues that he did not see how Mr. Hopkins can get the delegation.

There is at least superficial political significance in the fact that Hopkins chose Des Moines for the week's important speech. The occasion unquestinably offer him an extraordinary opportunity to reassure the business community which appears to be becoming increasingly distrustful of the administration and its motives. If Hopkins has the presidential bee, it would be wise for him to make Iowa his base of operations rather than New York State.

Even Mr. Roosevelt's influence scarcely would suffice to send Hopkins in a 1940 National Convention battle as a New York "favorite son." Therefore, the capital observed with some interest that the secretary was not making the customary one night stand on the occasion of this week's speech but was returning to Iowa for several days warmup around the prairie fires.

"BEST-FITTED" FOR JOB, HE'S TOO WELL-FITTED

NEW BRITAIN, Conn. — Charles MacDonald, manager of the state employment service, made a mistake when he complied with a request for a man "best fitted" for the job as a short-order cook

The applicant he referred was found to be too fat to squeeze through a narrow passageway to the storeroom of the restaurant. The second applicant was less helty.

Extension Dept. Gives Suggestions

STATE COLLEGE, Miss. — With the home garden destined to play a more important part in home living in 1939 than ever before, the extension horticulturist any county extension agents are offering farmers timely suggestions for their use in growing a good garden.

These agricultural workers point out that vegetables constitute a very important part of the diet. hey are valued especially for bulk, mineral salts, acids and important growth-promoting elements. They provide variety in the diet, and furnis heat and energy as well.

Mississippi's climate and soils are ideal for good vegetable production. There should be no lack of fresh vegetables in the home garden at any time of the year. February finds the following vegetables in our progressige garden at State olege, ready for table use: Onions, pinach, carrots, collards, kale and lettuce ((in a coldframe). A South Mississippi home garden that was recently visited had double that number. Here's what was ready for use in a Hancock county garden on February first: Tendergreens, mustard, radishes, onions (three kinds: bermuda, shallots and winter onions), collards, parsley, carrots, beets, lettuce (nicely headed) and English peas well on their way.

Right now the question of varieties is uppermost in the minds of all gardeners. Although many of our common vegetables have a number of varieties that might be succesfully grown in Mississippi, some of the varieties seem to be better adapted than others. The varieties recommended for the following vegetables have been tested and found adapted to our climate.

Carrots: Chantenay, Danver's Half Long, Morse's Bunching, Imperator the Chantenay is an old variety but is stil lone of the most popular over the country. It is adapted to a wide range of conritions and is very thrifty. Morse's Bunching and Imperator are rather new varieties but seem to be well adapted to this section and they have high quality.

BEETS: Detroit Dark Red, Early Blood Turnip, Crosby's Egyptian has been the leading variety in the past but the Detroit Dark Red has higher quality and is leading at present. The flesh of the beet is more uniformly red through out.

variety y- oi lin

SPINACH: Virginia Savey, Bloomdale Savey, Aragon, Nobel Giant Thick Leaf. The first two are of the savoy of crinkle leaf type and are grown mostly for the fresh market. The Virginia Savoy is resistant to mosaic. The latter two have large, smooth leaves and are grown for the cannery and home use.

PEAS: World's Record, Thomas Lexton, Early Alaska. The World's Record is the leading shipping variety of fresh pear in the Mississippi trucking area and produces a large crop of medium size high quality peas. The Thomas Laxton resembles it very much. The Early Alaska is an extra early smooth-seeded variety but has a very short season.

RADISH: Early Scarlet Globe, Rosy Gem, French Breakfact, White Icicle.

ASPARAGUS: Mary Washington. This is the leading variety and is resistant to rust.

Giant Curled, Fordhook Fancy.

Tendergreens (or mustard-spinach)- This is a Japanese plant that is grown and eaten like mustard, It produces very high quality greens.

OHIO MOTHER RECOVERS, SHOT OVER YULE TREE

ELYRIA, O. — Mrs. Minnie Rosseau, 29, who with her husband, William, 37, was shot by an 84-year-old farmer as the husband tried to take a Christmas tree, has recovered and soon will return to the home of her two daughters. Rosseau was killed.

Some of the 48 shotgun pellets still are lodged in the woman's back.

Will Case, the farmer who shot the two as he saw Rosseau digging up a tree shortly before Christmas, was charged with manslaughter and held to the grand jury.

Investigation of the case was postponed when it became certain that Mrs. Rosseau would recover.

Holcomb News

We are happy indeed to have little Mary Ann Hayden at home again. She had been confined to the hospital for some time on account of an injury she received several days ago. She is improving and we hope she will soon be entirely well.

Mrs. Melnot Hill is much improved though still confined to her bed. We are hoping she will soon be well and strong.

Mr. and Mrs. W. K. Williams of Newton were pleasant visitors last week of their mother, Mrs. M. L. Willams, who resides with Mr. and Mrs. Ed Holcomb.

Miss Connie Perry spent Wednesday with Mrs. E. D. Holcomb.

Miss Nellie Quinn Hayden from MSCW spent the week-end with her mother, Mrs. L. T. Hayden.

Mr. and Mrs. Willie Gray of Grenada were visitors of Mrs. Grays parents Mr. and Mrs. J. L. Elliott last week .

Miss Frances Shaw of Gore Springs was a week end visitor in the home of Miss Ruth Shaw.

Miss Sarah Kathryn McCormick of Grenada spent the week end with her sister Miss Martha McCormick who is teaching here.

Mrs. Jim Shaw is spending several days in the home of her daughter Mrs. Paul Hayden.

Miss Ethel Atkisson of Pascagoola, Fla. spent last week end with her mother Mrs. E. L. Atkisson and other relatives in Holcomb.

Miss Annie Frances Turnipseed of Canton is visiting her sister Mrs. Carnel Norris.

Bailey Rutledge and Tom Sanford seniors at Mississippi State College are doing "practice teaching" in the Holcomb High School.

The Methodist Missionary Society met with Mrs. D. Hayden Monday afternoon at 2:30 oclock with sixteen members present. Mrs. Holman who is Supt. of C. S. R. had charge of an interesting program with the following ladies taking part Mrs. H. A. McRee, Mrs. McBride, Mrs. Holcomb, Mrs Gibson and Mrs. Dot Hayden.

Delicious refreshments were served by Mrs. Hayden, assisted by other ladies.

Turkey Feeding

(By Lottie Wood, H. D. Agent)

Turkey Poults

These rations have given good results for the starting and growing of baby poults.

These all mash feeds should be used until the poults are from 4 to 6 weeks of age. At this age scratch grain may be added to the feeding program. Schatch grain should consist of at least 50 per cent yellow corn and other grains, such as, wheat, oats, and barley may be used with the corn.

Succulent greenfeed should be made available for poults at all times.

Remember

1. Crowding of poults is false economy.
2. Rigid sanitation is important in successful brooding.
3. Baby poults need a higher percent protein feed than baby chicks.
4. Succulent green feed is essential in successful brooding.
5. Rotation of range of growing stock is an aid in the prevention of black head.
6. Keep turkeys and other fowls on the farm separated as a means of preventing disease.
7. Make shade available for growing stock.
8. Rotate feeding grounds of growing stock.
9. Supply sufficient roosting quarters for all turkeys.
10. Do not expect a quality turkey without giving them proper management and a good feeding program.

No. 1

27 pounds of yellow corn meal.

CARD OF THANKS

God is so good to us, He gives us such fine doctors, nurses and such lovely friends for which we are so thankful. Thank you who made like so much sweeter and easier for us while at the hospital.

Ernest (Rusty) Sudie Barnett.

Providence News

There was a nice crowd at Sunday school and services Sunday. We hope there will be a larger one next Sunday.

Mr. H. G. Williams, of Graysport, was in the home of Mr. Monroe Williams a few days last week making them a cabinet.

Mrs. S. J. Sultan spent the day last Thursday with her sister, Mrs. Willie Searcy at Mrs. J. W. Bowen's.

Mrs. J. W. Hemphill and children spent Friday night with her parents, Mr. and Mrs. J. W. Bowen.

Misses Delores, Minnie and Robert Carpenter spent the week-end with their parents, Mr. and Mrs. J. L. Carpenter.

Mr. and Mrs. Jewel Carpenter and children spent the week-end with his mother, Mrs. Ruby Carpenter.

Mr. Berlin Worsham from the CCC camp in Grenada, spent Saturday night and Sunday with his parents Mr. and Mrs. Walter Worsham.

Mr. and Mrs. Fred Sultan, Learline and Aglen spent Sunday with his mother, Mrs. Dora Sultan.

Mrs. Willie Searcy is the guest of her sister, Mrs. Jack Smith of near Grenada.

Mrs. Otice Carpenter, Delores, Minnie, Lucile and Robert Carpenter, Mr. Ralph Davis, Mr. Berlin Worsham, Mr. and Mrs. Guy Sultan, Marguerite and Clifford Sultan were visitors in the home of Mr. and Mrs. J. W. Bowen Sunday afternoon.

Mr. J. B. Bowen spent the week-end with Byrd L. and Billie James near Gore Springs.

Taylor's Chapel

Mr. and Mrs. Clinton Thomason and daughter Peggie, were pleasant visitors of Mr. and Mrs. D. A. Williams and family Sunday.

Messrs. William Chapman and Ed Lee McMahon spent Sunday with William's parents, Mr. and Mrs. I. Chapman.

The William, family had as their guest for the wek-end Miss Frances Yeager.

Dr. W. R. Best, who has spent most of the winter with his daughter, Mrs. J. F. Collier, of Greenwood, is here visiting his son, Mr. C. E. Best and family.

The Civic League will meet in the home of Mrs. Ed Heth next Wednesday, March 1, at 3 o'clock.

100th Anniversary

(Continued from page 1)

140,000,000 shipments annually. Moreover, he adds, Railway Express operates on 218,000 miles of railway lines; conducts a high-speed air express service on 35,000 miles of airlines maintains 23,000 offices, and provides employment for 57,000 men and women.

Notice From Tax Assessor

If you bought a car tag but did not own a car on January 1st. Please notify the Tax Assessor so you will not be assessed for same. This will save you inconvenience and perhaps embarrassment as equalization board goes over tag sale each year.

W. E. BOUSHE
Tax Assessor.

AUNT MARY is coming

BUT if she TELEPHONED

You Could meet her

You needn't be in the dark about anything these days, with long distance telephone service as low in cost as it is. By using night Station-to-Station service, you can talk about 100 miles for 25c; 300 miles for $1.10, greater distances for equally low cost. Day rates are slightly higher. Ask the long distance operator for information about the call you want to make.

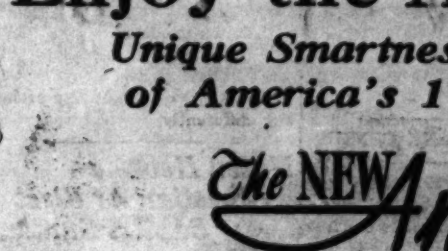
$399. and up f.o.b. factory

Cut Your Delivery Costs in Half

Give better, faster delivery service at a fraction of your present cost—Reduce expenses, increase your profits, as so many others in all lines are doing—with the speedy, flexible, economical Bantam delivery units—

"68% Saved on Gasoline Alone"

Above is report of a commercial user in Chattanooga—"$80 monthly saved by our two Bantams," says laundry in Atlanta. "Getting consistently over 50 miles per gallon"—Sioux City, Iowa, auto dealer. "32 miles per gallon"—Missouri newspaper owner.



"Bantam Fills the Bill"

"Must have lowest possible operating costs and absolute dependability," says fleet owner. "Bantam fills the bill. That's why we expect to buy many more this year."

Why continue losing money on excessive delivery costs? Hear this Philadelphia fleet operator now using 9 Bantams: "We've tried all makes—and our entire fleet (20 trucks) will be Bantams as soon as we can make necessary changes."

Would you use such savings? Can you afford not to get the facts? For complete information, prices, specifications, fill in coupon at right, mail it now.

4 Passenger Speedsters

HERE it is at last—the car you just can't wait to own—

The New American Bantam—the astonishing little cars you see darting through traffic everywhere, the pride of delighted, enthusiastic owners from coast to coast—

Drive 100 Miles for 50 Cents!

How attractive and practical they are—what admiration they command wherever they are seen! No wonder Bantam is so popular—

It's the answer to one of America's most serious problems—excessive transportation costs. It's the ONLY real economy car on the market, offers you by far the greatest value your automobile dollar will buy—

Just like any other fine automobile except in size—no car is better designed or better engineered than Bantam. Parts are rugged, strong; because of Bantam's smallness, they are more closely, more accurately fitted, add to Bantam's longer life and unbelievable economy.

½c per Mile for Gas and Oil

Think of it—owners report 45 to 55 miles per gallon of gasoline in daily use. Up to 60 on tests. Correspondingly low maintenance costs—

A complete, modern, quality car you will truly enjoy driving—roomy, comfortable, with ample storage space, complete in all respects. Ideal for business or pleasure, personal or family use. Don't delay—get your new Bantam now and begin enjoying it at once.
